

CAST IRON COLUMNS

Cast iron decorative, architectural and structural columns and pillars, for interior as well as outdoor projects.

These columns, , made to measure, are both decorative and structural and can be used for outdoor projects as well as for interior decoration or renovation purposes.

OUTDOOR: conservatories, porches, verandas, pergolas, canopies, gazebos, balconies, orangeries, terraces, decks, patios, canopies...

INDOOR: decoration, restoration, pubs, mezzanines, lofts and lounges, loggias...

Our models are inspired from the traditional roman, ionic, doric and corinthian styles.

But you will also find in our assortment some very contemporary models.

We are inspired by tradition and legacy, but open to modernity and 'design'.

Our columns can also be used as architectural and structural elements in a construction, indoor or outdoor,

And can also be used for the evacuation of the waters from gutters.

We only use GREY CAST IRON EN-GJL-200 AND DUCTILE CAST IRON EN-GJS-400 produced in our foundry and a we offer a very comprehensive guarantee.
